ENGLISH CAMP

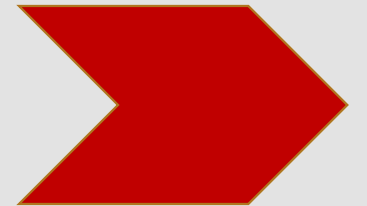

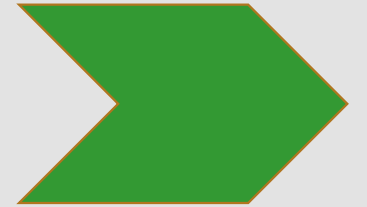

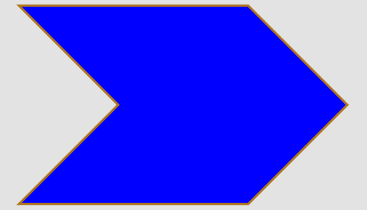

If anyone is wondering why "EASY", then everything is very simple: these are the first letters of the words "English Activities - Smart You!". After all, the language camp is fun, cognitive, entertaining, useful, joyful and interesting. Quests and excursions, projects and sports competitions, master classes and creative workshops are all our language camp "EASY".

The two weeks language camp has traditionally improved English-speaking skills of more than one hundred schoolchildren from 5th to 10th grades.

Students are happy to combine rest with the improvement of English language skills and knowledge. They played interesting games, did creative exercises to improve speaking and listening skills.

- Pupils made up interesting stories and drew pictures to them. Creative tasks are the most enjoyable.

- Pupils of the 7th grade visited the Cherkasy Zoo, imagining themselves to be tourists from the United Kingdom. Some watched the animals, asked questions, and some - tried myself as a guide.

"We are pleased to notice, that now animals live in a zoo in more comfortable conditions. We got lots of pleasant emotions, speaking English, watching our little brothers", the schoolchildren told when they returned to school.

Project "Around the World in One Day"

The most enjoyable project was "Around the world in one day". Each group has chosen a country that has been thoroughly studied for several days. Classrooms have become a mini-state, where students made their virtual trips to the chosen countries. They created national costumes, made dishes. Guests from Germany, Georgia, Japan, Italy, Belarus, Turkey, Spain and other countries were walking around the corridors of the school, and all those who wished to travel around the world did not need a visa and freely crossed the borders of the desired country.

Have a "round-the-world" trip in one day!

The language camp "EASY" is a great motivation to learn English.

English in live communication, during games, quests, teamwork, projects, sport events, excursions made the language camp not only interesting and exciting, but also cognitive. "Here you are not afraid to evaluate, not afraid to make a mistake, because, we are all more open, not limited to the standards of the classroom. After all, we learn and play", - this is how the students described their presence in the language camp.

The language camp "EASY" ("English Activities - Smart You!") has completed its work. But the holidays are ahead, a great time for communication both in native and foreign languages.
